

New England Faculty Development Consortium Notes for Poster Presenters

Format for Posters:

Presenters need to prepare posters on a tri-fold poster board or have some type of stiff backing. Posters printed on paper or canvas do not stand well on an easel and will have to be taped into position. Each presenter will have an easel on which to display their poster, and a small table for hand-outs, laptop, etc. There will be power available to each station.

The posters will be set up around the perimeter of the room. Conference participants will be enjoying wine and cheese as they wander the room. Posters should be set up at least 30 minutes prior to the poster session. Posters can be stored at the Registration table until set-up.
