

New England Faculty Development Consortium
Notes for Poster Presenters
College of the Holy Cross

Please see conference program for your presentation time and location.

Format: Presenters need to prepare posters on a tri-fold poster board or have some type of stiff backing; posters printed on paper or canvas are less convenient and will have to be taped for support. Each presenter will have an easel on which to display their poster, and a small table for handouts, laptops, etc. There will be power available close to each station.

The posters will be set up around the perimeter of the room; conference participants will also enjoy the wine and cheese session during this time. Posters should be set up at least 30 minutes prior to the poster session. Posters can be left behind the registration table until needed.
